

# ARE YOU INTERESTED IN FINDING YOUR ROOTS?

Tracing family history back through generations can help you connect more deeply with a sense of self by learning about your family's past—where they came from, who they were, what they did, the challenges they overcame, the accomplishments they achieved, the dreams they had.

**In this talk, you will learn how to go about it from one who has done it.**

SARAWAK HERITAGE SOCIETY | HERITAGE SPEAKERS SERIES

## GENEALOGY & HERITAGE

Tracing my Ancestors and Constructing the Family Tree

9th April, 2022, 3 PM (UTC +8) on ZOOM

### ABOUT THE SPEAKER

For the last 40 years, Dr. Chan Lek Lim has been working on his Chan Family Tree. He is very interested in the history of the family, writing down notes and tales from oral history. In conjunction with that he has been trying to connect up relatives far and near into an extensive extended family tree.
